

Purchase Steps

1. Download from www.dcmlogic.com/owner-installers:
 - a. DataUseConsent.pdf
 - b. LicenseAgreement.pdf
 - c. InstallationInstructions.pdf
 - d. IT_Requirements.pdf

You can fill out and save the data on these forms, and sign electronically.

2. Fill out the first two forms and email them, along with a complete shipping address to orders@dcmlogic.com. If you have any special issues for us to consider, please include them here. We will then issue a quote for the package.
3. Communicate with your IT professional to provide the information requested in IT_Requirements.pdf. This step is very important—if there are problems indicated by the IT professional, it is critical that we resolve them before moving forward with the order.
4. Ask your IT professional to email the requested information to techsupport@dcmlogic.com.
5. If needed by your organization, please issue a purchase order referring to the quote we've provided and send to orders@dcmlogic.com.
6. Please send a check to DCM Logic LLC, 64 Peg Shop Road, Keene NH 03431.
7. Once we have received payment, we will ship your unit.
8. When you install your BoilerScope®, please fill out the InstallationInstructions.pdf and email to techsupport@dcmlogic.com.
Thank you!
